UN GHS REVISION 7

Safety Data Sheet

Oxalic Acid Dihydrate 99.5% AR

Version 1.0, Date of issue: 2026-09-08

SECTION 1: Identification

1.1 GHS Product identifier

Product name	Oxalic Acid Dihydrate 99.5% AR
Product number	01901 00500
Brand	Chemnovo

1.3 Recommended use of the chemical and restrictions on use

Laboratory reagent

1.4 Supplier's details

Name	Hurst Scientific
Address	2 Transit Place, 6112 Forrestdale WA, Australia
Telephone	1300 778 068
email	sales@hurstscientific.com.au

1.5 Emergency phone number

Australian Poisons Information Centre 13 11 26

Australian Emergency Services 000

SECTION 2: Hazard identification

General hazard statement

Classified as a Hazardous substance according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) and Safe Work Australia criteria.

Classified as Dangerous goods according to the ADG Code for the Transport of Dangerous Goods by Road and Rail (7th Edition).

2.1 Classification of the substance or mixture

GHS classification in accordance with: UN GHS revision 7

- Acute Toxicity (Oral), Cat. 4
- Acute Toxicity (Dermal), Cat. 4
- Skin Corrosion/Irritation, Cat. 1B
- STOT – Repeated Exposure, Cat. 2

2.2 GHS label elements, including precautionary statements

Pictograms

1. Corrosion; 2. Exclamation mark; 3. Health hazard

Signal word **Danger**

Hazard statement(s)

H302	Harmful if swallowed.
H312	Harmful in contact with skin.
H314	Causes severe skin burns and eye damage.
H373	May cause damage to organs through prolonged or repeated exposure.

Precautionary statement(s)

P260	Do not breathe dust/fume/gas/mist/vapours/spray.
P264	Wash hands thoroughly after handling.
P270	Do not eat, drink or smoke when using this product.
P280	Wear protective gloves/protective clothing/eye protection/face protection.
P301+P312	IF SWALLOWED: Call a POISON CENTRE/doctor if you feel unwell.
P301+P330+P331	IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
P302+P352	IF ON SKIN: Wash with plenty of water.
P303+P361+P353	IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower.
P304+P340	IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310	Immediately call a POISON CENTRE/doctor.
P314	Get medical advice/attention if you feel unwell.
P321	Specific treatment (see supplemental first-aid instructions on this label).
P362+P364	Take off contaminated clothing. And wash it before reuse.
P363	Wash contaminated clothing before reuse.
P405	Store locked up.
P501	Dispose of contents/container in accordance with local regulations.

2.3 Other hazards

No information available on PBT / vPvB status or endocrine disrupting properties.

SECTION 3: Composition/information on ingredients

3.1 Substances

Hazardous components

Component	Concentration
Oxalic Acid Dihydrate (CAS: 6153-56-6)	**≥ 99.5 – < 100%**
CLASSIFICATIONS: Acute Toxicity (Oral), Cat. 4; Acute Toxicity (Dermal), Cat. 4; Skin Corrosion/Irritation, Cat. 1B; STOT – Repeated Exposure, Cat. 2. **HAZARDS:** H302 - Harmful if swallowed; H312 - Harmful in contact with skin; H314 - Causes severe skin burns and eye damage; H373 - May cause damage to organs through prolonged or repeated exposure.	

SECTION 4: First-aid measures

4.1 Description of necessary first-aid measures

Eye contact

Flush eyes with copious amounts of water for at least 15 minutes. Seek immediate medical attention.

Skin contact

Immediately remove all contaminated clothing, footwear and jewellery. Flush the affected area with copious amounts of water for at least 15 minutes. Seek immediate medical attention. Wash contaminated clothing before re-use.

Inhalation

Evacuate to fresh air immediately. If unconscious, place in recovery position and provide artificial respiration if breathing ceases. Seek medical attention.

Ingestion

DO NOT induce vomiting. Wash mouth out with copious amounts of water and seek medical attention.

First-aid facilities

Eye wash station, safety shower and First Aid kit.

4.2 Most important symptoms and effects, both acute and delayed

The most important symptoms and effects are described in Section 2 (hazard statements) and Section 11 (toxicological information).

4.3 Indication of immediate medical attention and special treatment needed

Treat symptomatically. For advice, contact the Poisons Information Centre (Australia 13 11 26; New Zealand 0800 764 766) or a doctor.

SECTION 5: Fire-fighting measures

5.1 Suitable extinguishing media

Carbon dioxide, dry chemical powder, alcohol-resistant foam or water spray. Do not use a heavy water stream. Use an extinguishing medium suitable for the surrounding fire.

5.2 Specific hazards arising from the chemical

Combustible solid. Heating or fire may produce irritating, poisonous or corrosive gases, including oxides of carbon. Containers may rupture when heated.

5.3 Special protective actions for fire-fighters

Fire fighters should wear self-contained breathing apparatus (SCBA) operated in positive-pressure mode and a chemical splash suit; a structural firefighter's uniform provides only limited protection against these materials. Fight the fire from a safe location.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation. Avoid contact with skin and eyes. Wear suitable protective equipment (see Section 8). Evacuate non-essential personnel from the area. Avoid generating and breathing dust.

6.2 Environmental precautions

Prevent the spill from entering drains, sewers and waterways. In the event of a major spill, contain the material and notify the relevant authorities.

6.3 Methods and materials for containment and cleaning up

Contain the spill and prevent further release. Sweep or vacuum the spilled material using clean, non-sparking tools, avoiding dust generation. Place the collected solid into a labelled, sealable container for disposal. Ventilate the area.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Avoid contact with eyes, skin and clothing. Use only with adequate ventilation. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Prevent dispersion of dust. Use local exhaust ventilation where dust or aerosol may be generated. Do not breathe mists or vapours. Wear appropriate protective clothing to avoid any contact.

7.2 Conditions for safe storage, including any incompatibilities

Store in a cool, dry, well-ventilated area. Keep containers tightly closed and upright when not in use. Store away from incompatible materials (see Section 10). Inspect containers regularly for damage or leaks.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Oxalic Acid Dihydrate (CAS: 6153-56-6)
AU/SWA (AU): TWA: 1 mg/m³; STEL: 2 mg/m³

8.2 Appropriate engineering controls

Ensure an adequate ventilation or exhaust system is in place.

8.3 Individual protection measures, such as personal protective equipment (PPE)

Eye/face protection

The use of a face shield, chemical goggles or safety glasses with side shield protection as appropriate. Must comply with Australian Standard AS 1337 and be selected and used in accordance with AS 1336.

Skin protection

Clean impervious clothing should be worn. Clothing for protection against chemicals should comply with AS 3765 Clothing for Protection Against Hazardous Chemicals.

Hand protection

Use occupational protective gloves complying with AS 2161 (Selection, Use and Maintenance).

Respiratory protection

If engineering controls are not effective in controlling airborne exposure then an approved respirator with a replaceable particulate filter should be used. Reference should be made to Australian Standards AS/NZS 1715, Selection, Use and Maintenance of Respiratory Protective Devices; and AS/NZS 1716, Respiratory Protective Devices.

SECTION 9: Physical and chemical properties

Basic physical and chemical properties

Physical state	Solid
Appearance	Transparent colourless crystals
Colour	No data available
Odour	Odourless
Odour threshold	No data available
Melting point/freezing point	101.5 °C
Boiling point or initial boiling point and boiling range	157 °C
Flammability	Combustible
Lower and upper explosion limit/flammability limit	No data available
Flash point	No data available
Explosive properties	No data available
Auto-ignition temperature	No data available
Decomposition temperature	No data available
Oxidising properties	No data available
pH	1.3
Kinematic viscosity	No data available
Solubility	Soluble in water (102 g/L at 20 °C); soluble in alcohol, ether and glycerol
Partition coefficient n-octanol/water (log value)	log Pow -0.81 (water-free substance)
Vapour pressure	< 0.001 kPa at 20 °C
Evaporation rate	No data available
Density and/or relative density	1.65 g/cm³ at 18.5 °C
Relative vapour density	No data available
Particle characteristics	No data available
Supplemental information regarding physical hazard classes	No data available
Further safety characteristics (supplemental)	No data available

SECTION 10: Stability and reactivity

10.1 Reactivity

Stable under normal conditions of storage and handling.

10.2 Chemical stability

Stable under normal conditions.

10.3 Possibility of hazardous reactions

None under normal use conditions.

10.4 Conditions to avoid

Direct sunlight. Air contact.

10.5 Incompatible materials

Alkalis, ammonia, oxidising agents, hypochlorites, silver compounds and metals.

10.6 Hazardous decomposition products

Toxic gases may evolve on combustion, including oxides of carbon.

SECTION 11: Toxicological information

Information on toxicological effects

Acute toxicity

Harmful if swallowed; Harmful in contact with skin; 375 mg/kg (female rat, LD50 oral)

Skin corrosion/irritation

Causes severe skin burns and eye damage.

Serious eye damage/irritation

Causes serious eye damage.

Respiratory or skin sensitisation

Not expected to be a respiratory or skin sensitiser.

Germ cell mutagenicity

Not considered to be a mutagenic hazard.

Carcinogenicity

Not considered to be a carcinogenic hazard.

Reproductive toxicity

Not considered to be toxic to reproduction.

Specific target organ toxicity (STOT) - single exposure

Not expected to cause toxicity to a specific target organ.

Specific target organ toxicity (STOT) - repeated exposure

May cause damage to organs through prolonged or repeated exposure.

Aspiration hazard

Not expected to be an aspiration hazard.

SECTION 12: Ecological information

Toxicity
LC50 (Leuciscus idus): 160 mg/L / 48 h; EC50 (Daphnia magna): 137 mg/L / 48 h

Persistence and degradability
Biodegradable (40% in 5 days)

Bioaccumulative potential
No bioaccumulation expected (log Pow < 1)

Mobility in soil
Water soluble; may spread in water systems and soil

Results of PBT and vPvB assessment
No data available

Endocrine disrupting properties
No data available

Other adverse effects
No data available

SECTION 13: Disposal considerations

Product disposal
Dispose of in accordance with local authority guidelines. Empty containers may still represent a hazard.

Packaging disposal
Dispose of in accordance with local authority guidelines.

Waste treatment
Dispose of in accordance with local authority guidelines.

Sewage disposal
Do not contaminate drains and waterways.

Other disposal recommendations
Nil.

SECTION 14: Transport information

ADG (Australian Dangerous Goods Code, 7th Edition)

UN Number	UN3261
Proper shipping name	CORROSIVE SOLID, ACIDIC, ORGANIC, N.O.S. (Contains OXALIC ACID DIHYDRATE)
Transport hazard class	8
Packing group	III
Special provisions	223, 274
Hazchem code	2X
Environmental hazards	Not classified

IMDG (International Maritime Dangerous Goods Code)

UN Number	UN3261
Proper shipping name	CORROSIVE SOLID, ACIDIC, ORGANIC, N.O.S. (Contains OXALIC ACID DIHYDRATE)
Transport hazard class	8
Packing group	III
Marine pollutant	No

IATA (International Air Transport Association Dangerous Goods Regulations)

UN Number	UN3261
Proper shipping name	CORROSIVE SOLID, ACIDIC, ORGANIC, N.O.S. (Contains OXALIC ACID DIHYDRATE)
Transport hazard class	8
Packing group	III

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations specific for the product in question

Oxalic Acid Dihydrate (CAS: 6153-56-6)

Australia SUSMP — Poison Schedule: Schedule 6

15.2 Chemical safety assessment

No chemical safety assessment has been carried out for this product.

SECTION 16: Other information
